MENTAL GOLF PROFILE

MEN'S ACADEMY

The Men's academy is designed for you to break 100, 90, or 80. Do you want to:

- Hit the fairway?
- Lob the ball over a bunker?
- Punch it out of the trees?
- Sink more pressure putts?
- Fire it at the flagstick?

The Three-Day School is the best program for overall game improvement and to experience the philosophy and teaching methods that have produced lower scores for our students. Many golfers attend the Three-Day School, year after year, and continue to experience the satisfaction of better ball striking and improved scoring.

If you are a player who took up the game without instruction and find your friends and business associates beating you, you may want to consider our Men's 101 class. Jason Sutton, our Senior Instructor, directs this program which provides a sound fundamental approach to the game.

Although, Fairways and Greens is a co-ed class, it is worth the 3 hours of training you receive in full swing with video analysis, drills, and perfecting the pre-shot routine. Single digit handicappers will find the Fairways and Greens class, along with private instruction from our Senior instructors, will provide the type of coaching you need to keep your swing consistent and scores low.

Get started today and call to register for a class that fits your desired golf goals and schedule.
